**INTELLECTUAL
PROPERTY**

X2

1st IP

Our first intellectual concept provides advertisers with:

- * Undivided attention
- * Filtered demographics
- * Viewer interaction
- * Direct response

Basically, we get viewers to interact with and pay attention to our advertisers' video ads.

2nd IP

Our second intellectual concept provides viewership by offering casino game players the best of all the three things they care about:

- 1. Best chance to win**
- 2. Bigger prizes to win**
- 3. Zero risk**

We're doing this to make the world a better place.

We donate 20% of the gross revenue to each winner's chosen cause or charity.

The Potential

For every \$100K invested, once profitable, returns start at \$30K annually and projected to grow to over a million annually within two years.

Then things will really take off!

The Offer

We are offering a total of 15% of the company for \$1.5 Million. Our valuation is much more than this generous offer indicates.

YOUR INVESTMENT IS SAFE

To prevent future CEOs or others from lowering the original investors' returns, we have set the profits to 33% of the *gross* revenue.

In our case, the profits are not a NET number...

They are a **GROSS** number!

We will also back your investment with the only lien on our proprietary software, valued at a minimum of \$2 Million.
